## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 26-35 and 41-46, drawn to influenza vaccine with low dose of antigens of pandemic strain and method of making.

Group II, claim(s) 36-40, drawn to kit combining low doses of parenteral and mucosal formulations of influenza antigens.

Group III, claim(s) 47-50, drawn to method of making influenza virus antigens using protease digestion.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: In group I, the special technical feature is the combination of the "low dose" with the pandemic strain. In group II, the special technical feature is the combination of mucosal and parenteral vaccine formulations. In group III, the special technical feature is a protease digestion step. Group I does not require the kit of group II or the preparation method of group III. Group II does not require the pandemic strain of group I or the

protease digestion of group III. Group III does not require the pandemic strain of group I or the mucosal/parenteral combination of group II. The only feature uniting groups I - II is that they all involve influenza antigens, a feature which is old in the art.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
